# Diego Casas Alvarado

**Mobile Software Engineer · Android**

casas.diego@outlook.com  linkedin.com/in/diegocasas90  calculatuvela.github.io

Aguascalientes, México · Remote

## SUMMARY

Mobile Software Engineer with 8+ years designing, building and shipping Android apps at scale for banking, payments and e-commerce — from Walmart and HSBC to Zillow. Expert in Kotlin and Jetpack Compose, with deep experience in clean and modular architecture, MVVM/MVI, Coroutines & Flow, dependency injection and comprehensive testing (unit, UI and snapshot). I own the full delivery lifecycle: architecture, implementation, code review, CI/CD and automated Play Store releases. Some iOS (Swift). Native Spanish, advanced English.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | Kotlin, Java, Swift |
| **Android** | Jetpack Compose, Coroutines & Flow, Hilt / Dagger, Room, Navigation, WorkManager, Paging, ViewModel / LiveData, DataStore |
| **Architecture** | Clean Architecture, MVVM, MVI, SOLID, multi-module, modularization |
| **APIs & Data** | Retrofit, Ktor, GraphQL, REST, SQLite |
| **Testing** | JUnit, MockK, Mockito, Espresso, UI Automator, snapshot / screenshot testing, Robolectric |
| **CI/CD & Tooling** | GitHub Actions, Bitrise, Jenkins, Gradle (Kotlin DSL), Detekt, Jacoco, Firebase Crashlytics |
| **iOS** | Swift, CocoaPods, Alamofire |
| **Ways of working** | Agile / Scrum & Kanban, code review, mentorship, cross-functional collaboration |

## PROFESSIONAL EXPERIENCE

### Android Software Engineer — Zillow

Dec 2024 — Present

Remote, México

- Lead end-to-end feature development on *Zillow: Homes For Sale & Rent* within a 150+ engineer organization.
- Drive improvements in modularization and increase automated test coverage across the codebase.
- Build with Clean Architecture, Anvil, Coroutines & Flow, Jetpack Compose and MVVM; write and maintain unit, UI and snapshot tests.

**App:** Zillow: Homes For Sale & Rent

### Android Software Engineer — Western Governors University

Aug 2022 — Dec 2024

Remote, México

- Led engineers and made key project decisions; conducted technical interviews.
- Delivered new features, bug fixes and performance optimizations for the myWGU app.

Coroutines & Flow · Room · LiveData · MVVM · Jetpack Compose · Dagger Hilt · Mockito · Espresso · **App:** myWGU

### Module Lead (Android) — 3Pillar Global

Jan 2022 — Jan 2023

Remote, México

- Mentored engineers, conducted technical interviews and drove project decisions.
- Partnered with designers and web engineers to define requirements and prioritize work.

`MVVM & MVP · Java · Kotlin · Dagger 2 · RxJava · Retrofit · App: Rover.com`

### Android Software Engineer — Wizeline

Oct 2021 — Jan 2022

Remote, México

- Developed new features and fixed bugs for the Walmart app.

`MVVM · Clean Architecture · Java · Kotlin · Dagger Hilt · Retrofit · Coroutines · Apps: Walmart, HSBC`

### Mobile Engineer (Android & iOS) — Softtek

Dec 2019 — Oct 2021

Monterrey, México

- Built features and bug fixes for banking and payments apps on both Android and iOS.

`Android: MVVM · Kotlin · Dagger 2 · Retrofit · iOS: Swift · CocoaPods · Alamofire · Apps: BBVA Transfer Services, MyBambu, CashGrid BBVA`

### Earlier — Nexta · INEGI · Freelance

2017 — 2019

México

- Nexta (Metalsa app) — features & fixes with Java, Retrofit, Google Maps API.
- INEGI — designed and launched a national Census Android app from scratch (Java, Firebase).
- Freelance — native Android apps and web apps (Angular, Java, Firebase).

## FEATURED PERSONAL PROJECT

### CalculaTuVela — Android app for candle makers · `calculatuvela.github.io`

- Solo end-to-end product: recipes, inventory, expenses and a pricing calculator, built with Kotlin & Jetpack Compose.
- Multi-module clean architecture (Hilt, Room, MVVM, Coroutines/Flow) with JVM unit tests and Robolectric UI tests, gated by Detekt in CI.
- Automated the release pipeline: **GitHub Actions builds a signed AAB and publishes it to Google Play via the Play Developer API** — one-click releases, no manual uploads.
- Live on Google Play since October 2026, after a closed test with 12+ testers and feedback-driven releases.

## EDUCATION

**MSc, Technology & Computer Engineering**
Universidad Autónoma de Aguascalientes

**BEng, Computer Engineering**
Universidad Autónoma de Zacatecas

## LANGUAGES

**Spanish** — Native
**English** — Advanced
